

# „7 lake walk“

4th and 5th may 2012 in Markkleeberg and surrounding area „ ... sensational hiking country... ”

In 2004 the idea of a hiking event in Markkleeberg was born and it started with 180 participants. After 9 years the „7-lake walk“ has become the symphaty- ambassador of the „Leipziger Neuseenland“.

Last year over 4.000 hikers have followed the invitation to hike between 7 lakes and 11 locations. For more than 24 hours the “Leipziger Neuseenland” experienced a state of emergency. Associations in historical costumes, reproductions of historical frontiers and events, ways and objects by torchlight and 104km full of Saxonian cordiality. But first of all it's the change of the landscape, which attracts all the hikers. Every year there is something new to admire and the unstoppable changing from a dirty open cast- mining-area to a beautiful tourism region still is impressing for everyone. The “7 lake walk” mobilizes young and old, delight and sporthikers and hikers from near and far.

Placings are completely unimportant, since collective hiking and the discovery of the “Leipziger Neuseenland” in an unhurried tempo of approximately 5km per hour is the center of attention. Along the way you will find 17 catering points where you can take a break. There are 16 hiking routes to choose this year. Most of them have their start in Markkleeberg but some also from one of the 6 further places. Numerous special buses and boats are on duty helping to make this hike an unforgettable event for you.

## Hiking routes with take off times and locations.

4 km "Maikäfer-Strecke", 4/5/12, 05:15 pm, Markkleeberg
